

## Research Study: Promoting Brain Health for People with Developmental Disabilities

### Interested in helping us evaluate a virtual course on brain health?

We are offering a Project ECHO course for health and social service providers from across Canada who work with older adults with intellectual and/or developmental disabilities.

*Research entitled: Promoting brain health: A national capacity building project for aging adults with intellectual or developmental disabilities, family caregivers and service providers*

### WHO CAN BE IN THIS STUDY?

- Health and social service providers working with adults with intellectual and/or developmental disabilities aged 40 years or older
- Living in Canada
- Have internet access and a computer or phone

### WHAT WOULD I DO IN THE STUDY?

- Attend a 6-week online Project ECHO course with other service providers
- Fill out questionnaires before the course, at the end of the course, and 14 weeks after the course is over
- Gift card provided for participating in the study

### HOW CAN I GET INVOLVED?

- Fill out this form <https://redcap.link/9uja13v6>
- If you would like help to fill out the form, please contact us; information provided below
- Visit the ECHO website for more information: <https://camh.echoontario.ca/>
